Double CCS

## Booking Tool

### Product details

---

>> Click any product icon and you will be taken to the page with product's characteristics

The screenshot shows the ABB website's 'Our products' page. At the top, there is a navigation bar with the ABB logo and links for HOME, DEMO, EXTRAS, and CONTACT. The main heading is 'Our products'. Below this, there is a product detail view for the 'THP CP3 CE 500 CJ'. The product is shown as three charging stations in green, blue, and yellow. The product name 'THP CP3 CE 500 CJ' is displayed prominently. Below the name, there is a search icon and a list of features: 'Non-functioning demo charger', 'Product description', and 'Available soon' (highlighted in a red button). The category is listed as 'ABB demo'. A 'Description' section is expanded, showing the text: 'Non-functioning Gen3 HP demo post with HMI screen running in demo mode and switched on LED light strips and LED top light. To be connected to mains via 230V standard mains plug (Schuko). With non-functioning CCV payment terminal.' There is also an 'Additional Information' section which is currently collapsed. At the bottom of the product image area, there are several smaller icons representing different charging station models.

## Booking

### Booking a product

---

- >> Choose Demo in the menu, fill in the order form and select the products you need  
Selecting "All Set" automatically adds to your order all the available products in the quantities listed in the "All Set" product details
